

# The 3 Rs

## Of My BLUEPRINT

### REALITY

Your REALITY - needs to remain realistic. It's important that you think in terms of solutions in the present.

### RESPONSIBILITY

Then whatever you do, it's becoming your RESPONSIBILITY, and you must understand that the choices you make and their consequences are your RESPONSIBILITY.

### RIGHT or wrong

Then is your choice RIGHT or wrong? Is it going to help more or hurt more all the parties involved in your reality?
